COURTS CONVEVE:

Circuit Court—First Monday in February, June and October.
Chancery Court—First Tuesday after fourth Monday in February and first Tuesday after first Monday in August.

Wednesday, Aug. 16, 1916.

Nothing our people could do, that would cost them so little and at the same time make them feel that they are discharging their citizenship to the fullest, would surpass an aroused action that would lead every farmer, every merchant and every person of every calling to lend a hand in building roads over the county.

It should be done only after the location of the coming roads has been definitely decided upon and in conjunction with the employees of our road commission.

A very helpful service could be performed in that way with very little cost to any single individual. The expenditure of several hundred dollars could be saved and the interest thereon.

White county and many other counties in the state are helping in a very substantial way to ward off bond issues and where bond issues have been made the money is made to go much farther and more good roads is the result.

We know that there are many citizens of Crossville, Pleasant Hill and Crab Orchard who are ready to lend a helping hand in that way. There are without doubt many men over the county who would gladly assist if the matter was brought to their attention. Talk to your neighbors about it and let see a larger public spirit manifest all over the county for by such a course much can be accomplished with no detriment of consequence to any one.

Will someone tell us why 15,000 troops remain in Mexico and 80,000 more are stationed along the border when we are at peace with Mexico and the world?

CLEAN HANDS

Very Important to Prevent Disease Germs from Entering Our Bodies.

Disease germs lead a hand to mouth existence. If the human race would learn to keep the unwashed hand away from the mouth many human diseases would be greatly diminished.

We handle infectious matter more or less constantly and we continually carry the hands to the mouth. If the hand has recently been in contact with infectious matter the germs of disease may in this way be introduced into the body.

Many persons wet their fingers with saliva before counting money, turning the pages of a book, or performing similar acts. In this case the process is reversed, the infection being carried to the object handled, there to await carriage to the mouth of some other careless person.

In view of these facts the U. S. Public Health Service has formulated the following simple rules of personal hygiene and recommend their adoption by every person in the United States.

WASH THE HANDS IMMEDIATELY
Before eating,
Before handling, preparing or serving food,
After using the toilet,
After attending the sick, and
After handling anything dirty.—Public Health Service.

FAMILY AVOIDS
SERIOUS SICKNESS

By Being Constantly Supplied With
Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 123

MEMPHIS-TO-BRISTOL HIGHWAY

White County Pushing Work on Mount-
tainside With Energy.

Last Thursday four autos loaded with good roads enthusiasts left Crossville for Bon Air to visit the road working movement launched by White county citizens on the Memphis-to-Bristol highway.

Esq. R. A. Powell, of Grassy Cove, and Road Commissioners J. W. Dorton and J. A. Kemmer were of the party that consisted of: Cashier J. S. Reed, Judge G. P. Burnett, W. F. Bandy, Marshal Hill Lowrey, S. C. Bishop, D. F. and Baxter Southard, Dr. V. L. Lewis, Volner Hamby, Attorney S. N. Smith and Sen. E. G. Tollett.

On reaching the working force on the side of the mountain we found 800 men actively moving dirt and rock, cutting trees and generally helping the construction of a good graded road up the mountain at Bon Air. If any person has the remotest idea that the White county people will not complete the Memphis-to-Bristol highway to the Cumberland county line, that notion will be quickly swept away after seeing what has been done and listening to the bubbling enthusiasm that pervaded those hundreds of men. Men were present who had come as far as 20 miles to assist in the movement for good roads. The N. C. & St. L. had put a train at the disposal of the workers from Sparta, also one from Eastland and had sent a car loaded with picks, shovels, wheelbarrows and other equipment to further the work. Numerous persons from the mountain came horseback and in wagons to lend a helping hand. It was the most cheering sight we have witnessed since the good roads idea became firmly fixed with the people because it was the real thing, active and enthusiastic work that produced practical results.

Every man present brought a lunch so that all were amply provided with a hearty dinner and little time was lost in getting the noonday meal. The distance up the mountain is two and a half miles, the greater part of which had been practically completed at a previous working some months ago. The steepest grade is eight per cent and that is at only one point. The remainder ranges from five to two per cent. Solid rock is being blasted out along the bluffs in places and the road as a whole will be one of the most scenic anywhere in the state. At one point there is a beautiful waterfall pouring over a bluff 40 feet or more high, at another the bluff juts out to such an extent that there will be ample room for parking several autos and be out of the rain. At this point there will be a chimney built and a crane hung so campers will be able to do such simple cooking as they may need. At another point one can look practically all over White county, see a portion of Warren and in the dim distance see the hills of Cannon county.

Such road building spirit as is being shown by White county is commendable in the highest degree and should be imitated by Cumberland county.

HUGHES IN NASHVILLE.

Charles E. Hughes, republican candidate for president, will speak in Nashville September 4. He will make only one speech in Tennessee, so far as arrangements at this time have been provided.

The republican state committee is called to meet there on the same date.

NO DANGER OF WAR

Some Reasons Given That Cannot Be
Turned Down.

Cincinnati Enquirer: Our readers should not take too seriously statements as to trade reprisal or any actions are the familiar "strong note" or "vigorous protest" by the administration of the United States against Great Britain's recent publication of a "blacklist" of American business men.

Neither should they become in the least excited by verbal outbreaks of friends of the administration in congress relative to this transaction. An administration that has so frequently called 30,000 or 40,000 of its own peaceful and law-abiding citizens out of Mexico rather than protect them in their rights in that country, is not likely to grow indignant, save in words, over the British blacklisting of eighty American business men, as published, or even the 8,000 names which are said will follow in subsequent blacklists. An administration which only "protests" when Germans, British and French mine the high seas and blow up neutral's vessels, without regard to the flag they carry, will not worry over a British blacklist of American business men.

An administration which only sends "a strong note" when United States mails to neutral and peaceful countries are taken off neutral vessels by British cruisers is not likely to do more when its merchants are blacklisted by the British government.

An administration that has for sixteen months permitted the seizure of American vessels flying the United States flag, under British "orders in council," which it has denounced as "unjust, illegal and indefensible" six months ago, is not apt to become excited over this ostracism and blacklisting of American business men by Great Britain.

An administration which for three years has seen hundreds of its citizens murdered by Mexican bandits, a score of its soldiers recently slain by Mexican troops, thousands of its nationals, men, women and children, compelled to fly before Mexican assaults, and at all times is ready not to punish, but to placate the officials of the murderous violators and assassins, can be depended upon to take no serious step to check the blacklisting of our merchants.

There may be "strong notes" that avail nothing; there may be "vigorous protests" that will be ignored; there may be loud denunciations for the people to read, but these are not the days of Washington or Jefferson, Jackson or Polk, Grant, Harrison or Cleveland.

WHY ENDURE SUMMER COLDS?

It isn't necessary to have a stuffed head, running nose. To cough your head off as it were. All you need do is to use Dr. Bell's Pine-Tar-Honey. The soothing and healing balsams open the clogged air passages and in a short time you get relief and start on the road to recovery. Your nose stops running, you cough less and you know you are getting better. Get a bottle, use as directed. Keep what is left as a cough and cold insurance. 2

SERIOUSLY INJURED

Esq. John A. Frey Cut In Many Places
and Scalp Badly Lacerated.

Yesterday morning at eight o'clock, at the Pleasant Hill postoffice, Esq. John A. Frey, aged 63, and C. H. Stewart, aged 54, got into a personal altercation which resulted in Esq. Frey being cut in many places and receiving a serious scalp wound from a heavy board in the hands of Stewart. Stewart was not hurt.

Dr. V. L. Lewis was called and dressed almost a dozen cuts about the body of Esq. Frey. He was stabbed twice in the right breast, a bad gash in the left cheek, a long cut from the corner of the left eye backward through the temple, a long and deep gash in the right arm that severed the arteries, a deep gash in the left abdomen, two bad cuts in the scalp on the back of the head and numerous minor cuts and stabs where the skin was only slightly broken. If no unexpected complications arise, the chances for the recovery of Esq. Frey are considered good, but he is very seriously injured and will doubtless be confined to his bed for many days. He is at the home of his sister in Pleasant Hill; his home is a mile or more from the Pleasant Hill postoffice.

Stewart was arrested by Sheriff J. Q. Wyatt and brought to Crossville for a preliminary hearing before Esq. U. S. Rose, who, after hearing the evidence, fixed the bond at \$2,000, which Stewart gave by J. M. Stanley and Prof. W. E. Wheeler as signors.

Esq. Frey is one of the most respected citizens of Pleasant Hill and is a member of the county court. Some years ago he had his left hand seriously crippled with a felon so that he was unable to defend himself to much effect and as he had no weapon he was practically at the mercy of his assailant.

Just who is more to blame in the case we are unable to tell as the stories relatives to the trouble are conflicting. Stewart expressed deep regret at the unfortunate occurrence and says that it is the first time in his life that he ever had trouble with any one.

A little unpleasantness has existed between the men for some time as Esq. Frey has thought that Stewart brought hog cholera into the neighborhood, which Stewart denies. Recently more hard feeling was aroused between them by stories told by a certain person relative to a proposed rural route, and that seemed to be the direct cause of the difficulty.

HOUSEKEEPING VOTERS.

The theory that suffrage for women will cause the housewife to drop her dishpan and mop and desert the kitchen for the stump is a fallacy, according to Senator Shafroth, of Colorado.

That state has had equal suffrage for twenty-three years and, therefore Senator Shafroth is recognized in many quarters as an authority on votes for women.

Divorces due to woman suffrage in Colorado are as rare as orchids in the Sahara, according to Senator Shafroth. In a statement to The Washington Herald, he said:

"Woman suffrage has not caused the neglect by women of their home duties. It has not been the cause for domestic dissension or divorces. Judge Allen of the Colorado district, declares, that in twenty years on the bench, he has never known of a divorce case wherein it was claimed that political differences had been the cause of trouble between husband and wife."

"Equal suffrage in Colorado has caused no tendency in men to omit the politeness and gallantry to woman which she always has commanded. Equal suffrage has not lowered the ideals of woman."

SHERIFF'S SALE.

By virtue of an order of sale issued from the Circuit Court of Cumberland County, Tenn., in the case of Armour Fertilizer Works against Herman Owens and others, I will, on the 26th day of August, 1916, at the court house door in the town of Crossville, offer for sale and sell to the highest and best bidder for cash in hand, the following described land to-wit: Lying and being in the Second Civil District of Cumberland County, Tenn., and bounded on the North by Woody, on the South by Miller, on the east by Elmore and Woody, on the west by Childs, excluding 5 acres deeded by Herman Owens to C. M. Deck; recorded in Register's office of Cumberland County, in Book 9, pages 448 and 449. Original tract contained about 20 acres.

Said land is levied on as the property of Herman Owens to satisfy a judgment that the said Armour Fertilizer Works obtained against the said Herman Owens et al in the sum of \$28.17 and cost, in all amounting to \$39.17.

This August 5, 1916. John Q. Wyatt, Sheriff.

SHOULD SLOAN'S LINIMENT GO ALONG?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for sudden attacks of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as to go on a vacation or camp without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets. 2
